The Silver Orange is a place for teens (ages 11 -- 17) to come hang out with their friends, explore their interests, try new activities, and to engage with creating a place that they would like to call their own. Our goal is to create an environment that sparks creativity, socialization, and a great time.

We are seeking interns who are looking to gain experience working with adolescents in various capacities - teaching a small class, supervising activities, engaging in games, and more. This position also provides work experience in financial transactions, managing members and enrollment, marketing, and customer service.

Hours are very flexible. Shifts begin at 1:30pm and end at 10:15pm, Monday through Saturday. Interns have the opportunity to pick their schedule with a minimum commitment of two hours one time a month to a maximum of eight hours a day five days a week under the supervision and approval of a manager.

All interns are required to be 18 years or older and have earned a high school diploma or equivalent. Interns are compensated in letters of reference, possible class credit, and resume building. We support our staff who are currently going to school, and at times, they are even able to work on classwork on the job! All intern positions are eligible for a paid position dependent on company need.

Please contact Emily Weller by responding to this post or at (916) 288-4169 with your resume and contact information, and we will get back to you as soon as we can.
